APAC Market Presence of “Atliq Exclusive”

Question

Provide the list of markets in which customer "Atliq Exclusive" operates its business in the APAC region.

Output

The image shows a screenshot of a software interface titled "Result Grid". It features a table with two columns: "market" and "region". The table lists eight countries under the "market" column, all of which are categorized as "APAC" in the "region" column. The rows are: India, Indonesia, Japan, Philippines, South Korea, Australia, Newzealand, and Bangladesh. The first row, "India", is highlighted with a blue background. Above the table, there are icons for a grid, a refresh button, and a "Filter Rows:" label.

	market	region
▶	India	APAC
	Indonesia	APAC
	Japan	APAC
	Philippines	APAC
	South Korea	APAC
	Australia	APAC
	Newzealand	APAC
	Bangladesh	APAC

Insights

- Atliq Exclusive has a presence across multiple markets in the APAC region, demonstrating its strong regional footprint.
- Operating in several APAC markets enables the company to serve a diverse customer base and reduce dependence on a single market.

Year-over-Year Unique Product Growth Analysis

Question

What is the percentage of unique product increase in 2021 vs. 2020? The final output contains these fields,
unique_products_2020 ,
unique_products_2021 ,
percentage_chg

Output

Result Grid			
Filter Rows:			
Export:  Wrap Cell Cor			
	unique_products_2020	unique_products_2021	percentage_chg
▶	245	334	0.36

Insights

- The number of unique products increased from **245 in FY2020 to 334 in FY2021**, representing an addition of **89 new products**.
- The company achieved a **36% year-over-year growth** in its product portfolio, indicating a strong focus on product expansion and innovation.

Product Count Analysis by “Segment”

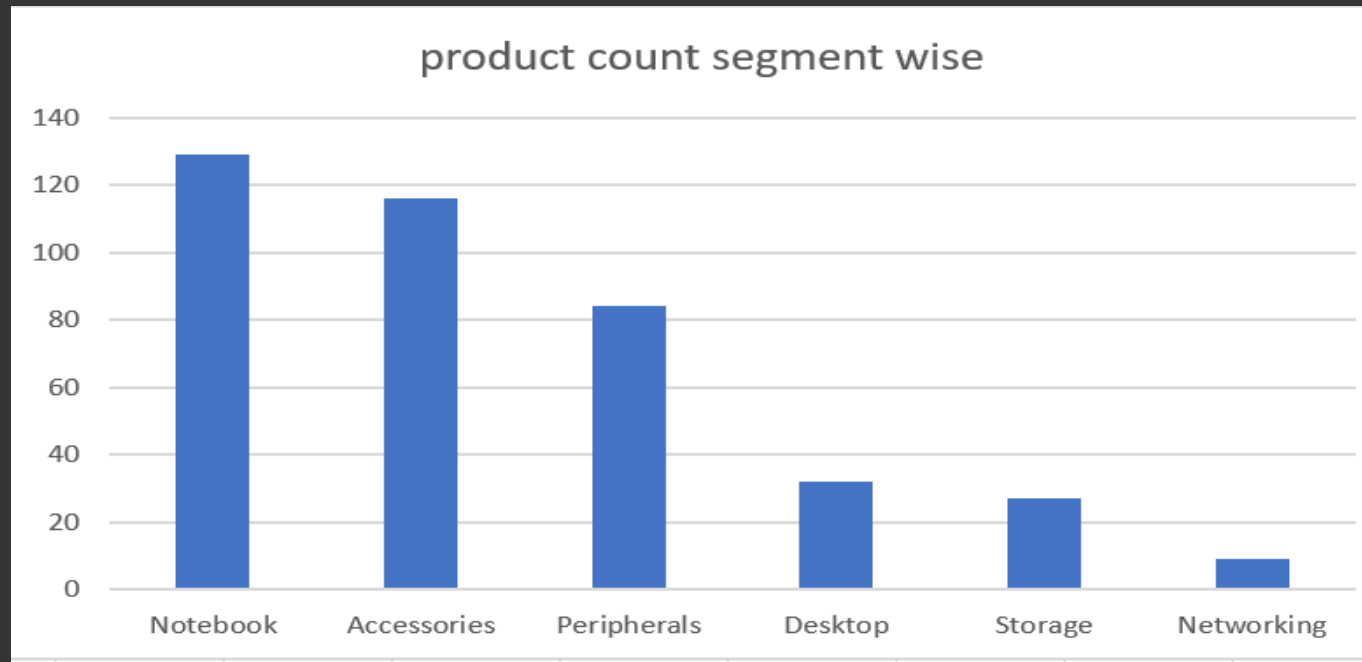

Question

Provide a report with all the unique product counts for each segment and sort them in descending order of product counts. The final output contains 2 fields,
unique_products_2020 ,
unique_products_2021 ,
percentage_chg

Output

Result Grid   Filter Rows:		
	segment	product_count
▶	Notebook	129
	Accessories	116
	Peripherals	84
	Desktop	32
	Storage	27
	Networking	9

Conversion of Output to visual

Insights

- **Notebook** is the largest product segment with **129 unique products**, making it the company's most diversified product category.
- **Accessories (116)** and **Peripherals (84)** also contribute significantly, indicating that Atliq Hardwares maintains a strong portfolio around complementary computing products.
- **Desktop (32)**, **Storage (27)**, and especially **Networking (9)** have considerably fewer unique products, suggesting a more focused product strategy in these segments.

“Segment-wise” Increase in Unique Products (2021 vs 2020)

Question

Follow-up: Which segment had the most increase in unique products in 2021 vs 2020?

The final output contains these fields,

segment ,

product_count_2020 ,

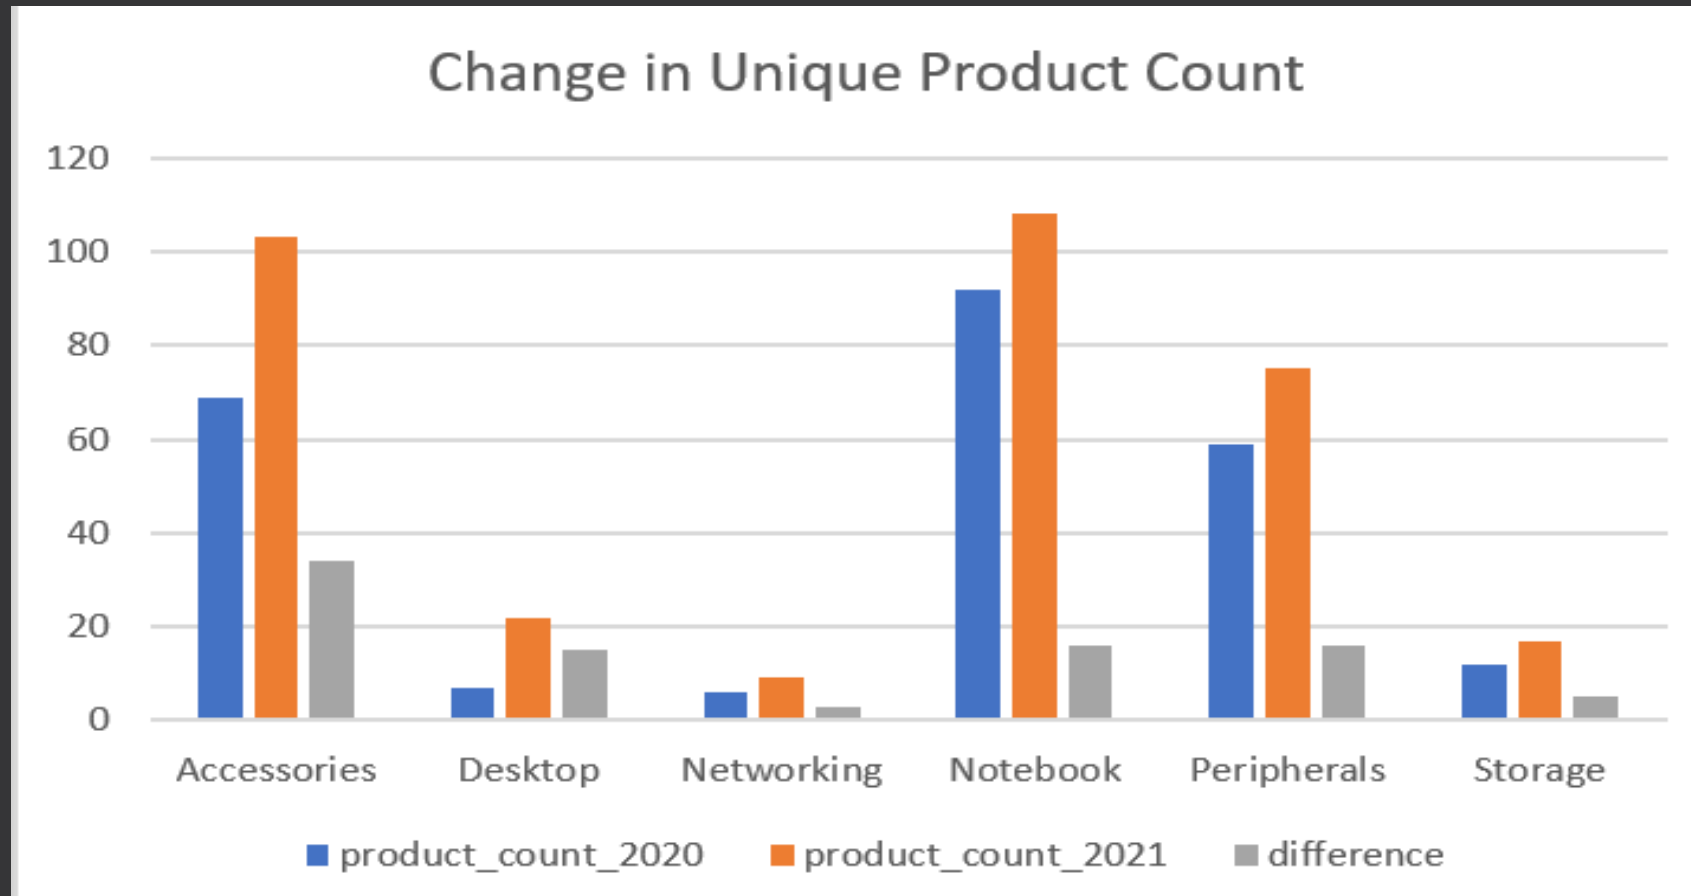

product_count_2021 ,

difference

Output

Result Grid	Filter Rows:	Export:	Wrap Cell Content:
segment	product_count_2020	product_count_2021	difference
Accessories	69	103	34
Desktop	7	22	15
Networking	6	9	3
Notebook	92	108	16
Peripherals	59	75	16
Storage	12	17	5

Conversion of Output to visual

Insights

- **Accessories** recorded the **highest increase in unique products**, growing from **69 in 2020 to 103 in 2021**, an increase of **34 products**, indicating it was the company's primary focus for product expansion.
- **Notebook** remained the largest product segment overall, increasing from **92 to 108 products**. Although its growth (**16 products**) was lower than Accessories, it continued to maintain the broadest product portfolio.
- **Desktop** experienced notable growth, expanding from **7 to 22 products**, which is an increase of **15 products**. This suggests increased investment in a previously smaller product segment.
- **Networking (+3)** and **Storage (+5)** recorded the lowest growth, indicating that product expansion in these categories was comparatively limited during the period.

Analysis of Manufacturing Cost Across Products

Question

Get the products that have the highest and lowest manufacturing costs. The final output should contain these fields,
product_code ,
product ,
manufacturing_cost

Output

	product_code	product	manufacturing_cost
▶	A6120110206	AQ HOME Allin1 Gen 2	240.5364
	A2118150101	AQ Master wired x1 Ms	0.8920

Insights

- **AQ HOME Allin1 Gen 2** has the **highest manufacturing cost** of **240.54**, making it the most expensive product to manufacture among all products in the dataset.
- **AQ Master wired x1 Ms** has the **lowest manufacturing cost** of **0.89**, indicating that it requires minimal production cost compared to other products.

Top Customers Receiving Highest Pre-Invoice Discounts

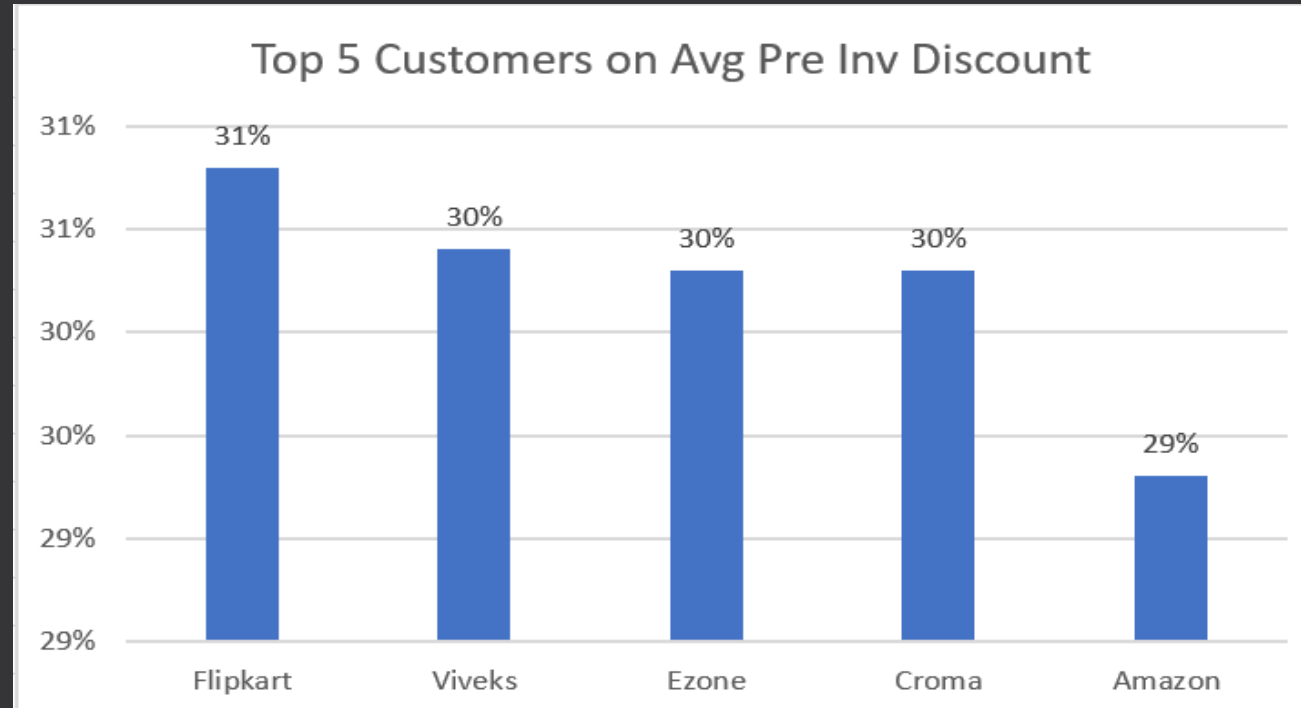

Question

Generate a report which contains the top 5 customers who received an average high pre_invoice_discount_pct for the fiscal year 2021 and in the Indian market. The final output contains these fields,
customer_code ,
customer ,
average_discount_percentage

Output

Result Grid	Filter Rows:	Export:	Wrap C
	customer_code	customer	average_discount_percentage
▶	90002009	Flipkart	0.308
	90002006	Viveks	0.304
	90002003	Ezone	0.303
	90002002	Croma	0.303
	90002016	Amazon	0.293

Conversion of Output to visual

Insights

- **Flipkart** received the **highest average pre-invoice discount of 30.8%** among the top five customers in the Indian market during FY2021.
- **Viveks, Ezone, and Croma** received very similar discount levels (**30.4%, 30.3%, and 30.3%** respectively), indicating a consistent pricing strategy for these key retail customers.
- Although **Amazon** is among the top five customers, it received the **lowest average discount (29.3%)** within this group, suggesting that discount allocation varies across customers based on business strategy and commercial agreements.

Monthly Gross Sales Performance of “Atliq Exclusive”

Question

Get the complete report of the Gross sales amount for the customer “Atliq Exclusive” for each month . This analysis helps to get an idea of low and high-performing months and take strategic decisions. The final report contains these columns:

Month ,

Year ,

Gross sales Amount

Output

Result Grid			
Filter Rows:			
	month	year	Gross Sales Amount
▶	September	2020	4496259.67
	October	2020	5135902.35
	November	2020	7522892.56
	December	2020	4830404.73
	January	2020	4740600.16
	February	2020	3996227.77
	March	2020	378770.97
	April	2020	395035.35
	May	2020	783813.42
	June	2020	1695216.60
	July	2020	2551159.16

	month	year	Gross Sales Amount
	August	2020	2786648.26
	September	2021	12353509.79
	October	2021	13218636.20
	November	2021	20464999.10
	December	2021	12944659.65
	January	2021	12399392.98
	February	2021	10129735.57
	March	2021	12144061.25
	April	2021	7311999.95
	May	2021	12150225.01
	June	2021	9824521.01

June	2021	9824521.01
July	2021	12092346.32
August	2021	7178707.59

Insights

- Gross sales showed a **substantial increase in FY2021** compared to FY2020, indicating significant business growth for **Atliq Exclusive** over the two-year period.
- Within **FY2021**, **November** recorded the **highest gross sales of approximately 20.46 million**, making it the best-performing month of the fiscal year. This suggests the impact of seasonal demand, promotional campaigns, or festive sales.
- **April (7.31 million)** and **August (7.18 million)** were the relatively weaker months in **FY2021**, indicating periods where customer demand or sales activity slowed compared to the rest of the fiscal year.
- The consistently higher monthly gross sales across **FY2021** compared to **FY2020** reflect improved customer performance and sustained revenue growth for **Atliq Exclusive** over the two fiscal years.

Quarter-wise Sales Performance Analysis

Question

In which quarter of 2020, got the maximum total_sold_quantity? The final output contains these fields sorted by the total_sold_quantity,
Quarter ,
total_sold_quantity

Output

Result Grid			Filter Rows:
	Quarter	total_sold_quantity	
▶	Q1	7005619	
	Q2	6649642	
	Q4	5042541	
	Q3	2075087	

Conversion of Output to visual

Insights

- **Q1** recorded the **highest total sold quantity of 7.01 million units**, making it the strongest-performing quarter in **FY2020**.
- **Q2** followed closely with **6.65 million units sold**, indicating that the first half of the fiscal year contributed the majority of annual sales.
- **Q3** experienced the **lowest sales volume (2.08 million units)**, representing a significant decline compared to the other quarters and indicating a period of weaker market demand or sales activity.
- Sales recovered in **Q4**, reaching **5.04 million units**, but remained below the performance of both **Q1** and **Q2**, suggesting only a partial rebound in demand.

Sales Contribution by “Sales Channel” in FY2021

Question

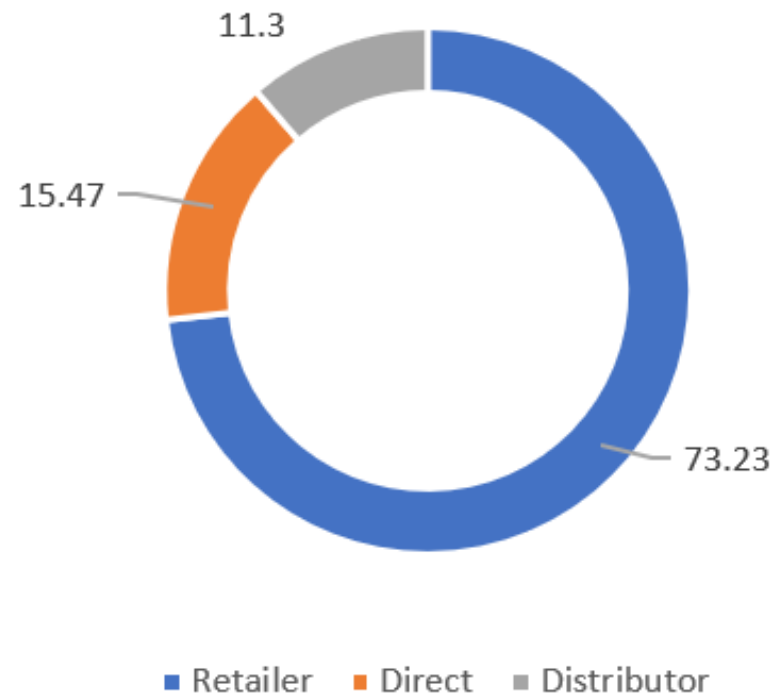

Which channel helped to bring more gross sales in the fiscal year 2021 and the percentage of contribution? The final output contains these fields,
channel ,
gross_sales_mln ,
percentage

Output

Result Grid		Filter Rows:	Export
	channel	gross_sales_mln	percentage
▶	Retailer	1219.08	73.23
	Direct	257.53	15.47
	Distributor	188.03	11.30

Conversion of Output to visual

Gross Sales Contribution of Each Channel

Insights

- The **Retailer** channel generated the highest gross sales in **FY2021**, contributing **1,219.08 million**, which accounts for **73.23%** of the total gross sales. This makes it the company's primary revenue-generating channel.
- The **Direct** sales channel contributed **257.53 million (15.47%)**, indicating a moderate share of overall revenue and reflecting the importance of direct customer relationships.
- The **Distributor** channel accounted for **188.03 million (11.30%)**, making it the smallest contributor among the three sales channels.
- Together, the **Direct** and **Distributor** channels contribute only **26.77%** of total gross sales, highlighting a strong dependence on the **Retailer** channel for revenue generation.

Top 3 Products by Division Based on Total Sold Quantity

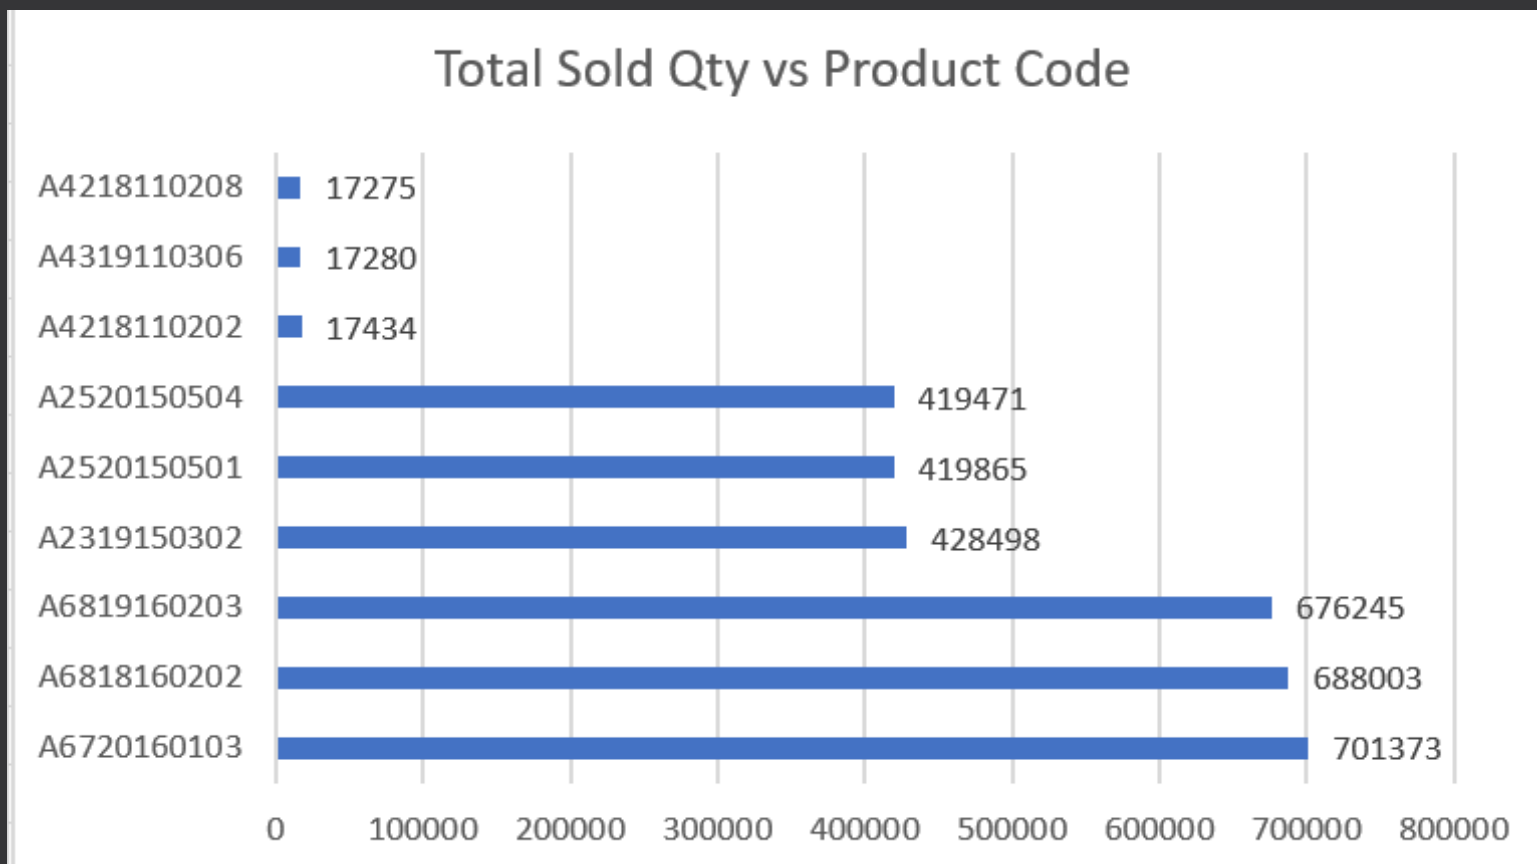

Question

Get the Top 3 products in each division that have a high total_sold_quantity in the fiscal_year 2021? The final output contains these fields,
division ,
product_code ,
product,
total_sold_quantity,
rank_order

Output

Result Grid  Filter Rows:					
Export:  Wrap Cell Content: 					
	division	product_code	product	total_sold_quantity	rank_order
▶	N & S	A6720160103	AQ Pen Drive 2 IN 1	701373	1
	N & S	A6818160202	AQ Pen Drive DRC	688003	2
	N & S	A6819160203	AQ Pen Drive DRC	676245	3
	P & A	A2319150302	AQ Gamers Ms	428498	1
	P & A	A2520150501	AQ Maxima Ms	419865	2
	P & A	A2520150504	AQ Maxima Ms	419471	3
	PC	A4218110202	AQ Digit	17434	1
	PC	A4319110306	AQ Velocity	17280	2
	PC	A4218110208	AQ Digit	17275	3

Conversion of Output to visual

Insights

- In the **N & S** division, the **AQ Pen Drive** product line dominated sales, with all three top-ranked products selling **more than 675,000 units**, making it the strongest-performing division in terms of product sales volume.
- The **P & A** division also demonstrated strong demand, with its top three products each selling **over 419,000 units**, indicating consistent customer demand across its leading products.
- In contrast, the **PC** division recorded significantly lower sales volumes, with its top-selling products achieving only around **17,000 units**, highlighting a substantial gap compared to the other two divisions.
- The large variation in sales volumes across divisions suggests that **N & S** and **P & A** are the primary revenue-driving product categories, while the **PC** division may require additional focus through product development, marketing initiatives, or pricing strategies to improve sales performance.
